TERRACOTTA TILES

Natural terracotta tiles are beautiful and sustainable with colour that's locked into the clay so it never fades. Breathable terracotta helps to keep your home cooler in summer and warmer in winter, lowering your energy bills and reducing condensation and mould.

CONCRETE TILES

The toughest, most economical roofing material on the market, concrete tiles are designed to handle the harshest conditions and look great for decades. Monier offers a range of profiles and patterns, from modern flat tiles to classic Georgian shingles.

HOW LONG DOES IT TAKE?

If you've been watching your neighbour's new roof go on, you'll know it's pretty quick. Re-roofing with Monier takes 2 to 4 days to complete, depending on the size of the roof.

WHAT AFFECTS THE COST OF A RE-ROOF?

Your choice of product, whether an underlay is required and the size, pitch and complexity of the roof determine the cost of having a roof installed. Our experts will assess your home and provide you with a detailed, no-obligation quote.

MonierTM
ROOFING

BACKED BY A 50-YEAR GUARANTEE.

Your Monier roof is backed by a 50-year product and performance guarantee. In the case of our Monier Terracotta roof tiles, this includes the roof remaining colourfast for 50 years.

LET'S GET THE NEIGHBOURS TALKING!

**Did you know that repairing, fixing or
recolouring an existing roof can cost as
much if not more than a full re-roof?**

Give our friendly team a call today and make
your home the talk of the street with Monier.
